DETAILED ACTION

Drawings

1. The drawings filed 05/03/2006 are acceptable.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

Regarding claim 14, in a method for joining an initial section of a film tube, the prior art does not teach or make obvious the concept of the placement of the first cut and second cut on the end section is carried out in such a way that the first tab and the second tab each which projects in the longitudinal direction of the film tube are formed in the boundary regions of the end section, which first tab and second tab are inserted between the inner lateral surfaces of the initial section and are joined to the initial section in a tension-proof way in the manner claimed by the applicant.

Regarding claim 15, in a method for joining an initial section of a film tube, the prior art does not teach or make obvious the concept of the placing of the cut occurs by means of a cutting element arranged on either side of the film tube in the two outer boundary regions of the initial section along the inner fold axis by horizontally moving the cutting element from a first position in which it is spaced from the film tube to a second position in which it slits open the film tube laterally in the longitudinal direction of the film tube, and the thus formed tabs are each placed from the outside onto the outer lateral surfaces of the end section and are joined to the same in a tension-proof way in the manner claimed by the applicant.

Regarding claim 22, in a packaging system with a reel on which a film tube is wound up, the prior art does not teach or make obvious the concept of the cutting apparatus being a cutting element arranged on either side of the film tube, which cutting element is horizontally movable from a first position in which it is spaced from the film tube to a second position in which it slits open the film tube laterally in the longitudinal direction of the film tube in the manner claimed by the applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
